General Site Overview

Eye on Lobbying is Wisconsin’s lobbying activity reporting system. The system is used for:

- Lobbyist licensing and authorization
- Lobbyist principal registration
- Reporting lobbying activities and expenditures

The Eye on Lobbying site is found at https://lobbying.wi.gov. Members of the public do not need a user account to access the site.

Searching

There are three general ways to search for lobbyist and principal information:

- ‘Who is Lobbying?’
- ‘What Are They Lobbying About?’
- ‘Principal Lobbying Efforts’

The Eye on Lobbying website uses an inclusive search technique. For example, searching for ‘tax’ would return results for tax, taxes, taxpayer, taxation, payroll tax, and other terms that include the word tax. Using a more specific term in like taxation, would not match with the word tax.

When searching for statutes, use a broad search term like 13 which would match with any reference to chapter 13 of the Wisconsin Statute. A more specific term of 13.63 would limit results to only those related to chapter 13.63 which covers lobbyist licensing.

If searching using a lobbyist’s name and are unsure of spelling, use a partial name such as ‘Beth’ for someone named Elizabeth or Elisabeth.

If searching for a full list of lobbyists, lobbying principals, or state agency officials (legislative liaisons) that lobbying for their agency, go to the Directories tab on the navigation bar after logging in.
User Accounts and Passwords

User accounts are not necessary to search for and view lobbying information that is available in Eye on Lobbying. A User Account is only needed to:

- Register a lobbying principal or amend a current registration

**Paying Fees**

There are three steps a lobbying organization (principal) must take to remain compliant with lobbying law:

1. License the organization’s lobbyist(s)
2. Register the organization, and
3. Authorize its lobbyist(s)

There are different fees for each of these steps. Through the registration and authorization process, fees will accrue and can be paid online with a credit card or bank account, or through mail with a check. **Fees paid with a credit card will generate a convenience fee included with the total at checkout.**

---

**NOTE:** Fees are only visible in user accounts that have been given permissions to pay fees.

---

1. Log in to the user account and click **Pay Fees** on the left navigation bar (not pictured). This is the “cart,” which shows all of the fees accrued if an application for a lobbyist license, principal registration, lobbyist authorization, or focus subscription has been filled out.
2. Select the fees to pay by checking the box to the left of each itemized fee, then click Review and Check Out. From this screen fees that were added accidentally can be cancelled by selecting them and clicking Cancel Selected Fees. 15-Day Reporting

Principals must report to the Ethics Commission each bill, budget bill subject, proposed rule, and topic on which the organization makes a lobbying communication. After the first five occurrences of lobbying activity, the principal must report all activity to the Ethics Commission **within 15 days of the first lobbying communication on the bill/subject/topic/rule**. If a principal is very active, best practice is to submit a 15 day report every fifteen days. Do not wait until Statements of Lobby and Expenditures (SLAE) are due, because that deadline is more than 15 days after the deadline to submit a 15 day report and the principal will be penalized.

If a topic is going through many legislative transformations, the reporting on that topic should reflect the state of the matter at the time of communication with officials. For example: if a principal lobbies on a topic and believes it may be included in the upcoming budget proposal, the topic must be reported as a **topic** first. If the topic then is taken up in the budget bill and the principal continues to lobby on it, the topic should now be
reported as a *budget bill subject*, after they are published. If the matter now a part of a *budget bill subject* is removed from the budget, but is still being lobbied on as a standalone bill, it should again be reported as a *topic*. If that *topic* is introduced as a standalone bill, lobbying activity on it must now be reported as a *legislative proposal*.

**Required Information for Submitting a 15-Day Report (§13.67):**

- **Legislative Proposal:**
  - House (Senate/Assembly)
  - Proposal type (bill, resolution, joint resolution)
  - Bill number
  - Session
  - Interest notification date
  - Reporting period
  - Position
  - Comments

- **Budget Bill Subject:**
  - Name of budget bill subject
  - Interest notification date
  - Reporting period
  - Position
  - Comments

- **Proposed Rules:**
  - Agency name
  - Proposed rule number
  - Interest notification date
  - Reporting Period
  - Position
  - Comments

- **Topics:**
  - Interest notification date
  - Reporting period
  - Topic subject
  - Action type (legislative matter/Rule by state agency/both legislative matter and rule)

---

Budget Bill Subjects are published generally within a few days of the proposal of the budget, with titles from their “relating to” clause, and may not exactly match a topic. This is not an error, but is because topic titles are determined by principals when they self-report.

10. **Non-Lobbyist Time Report**

Non-Lobbyist Time to be recorded is time that governmental affairs directors, senior managers, non-clerical employees (other than Lobbyists), and others who act under the organization's supervision or direction spent on lobbying-related activities. Do not record the time of Lobbyist(s); that time is already reported in each Lobbyist’s Time Report.

This time report must accurately reflect a daily accounting of time the organization spends on lobbying-related activities. There are a number of ways the organization can have individuals account for time spent on lobbying-related activities. Use any reasonable method that helps accurately record time spent on lobbying-related activities.

**Lobbying-related activities include:**

- Efforts pertaining to the development, drafting, introduction, consideration, modification, adoption, rejection, review, enactment, or defeat of any bill, resolution, amendment, report, nomination, administrative rule or other matter by either house of the legislature.
- Efforts pertaining to the proposal, drafting, development, consideration, promulgation, amendment, repeal, or rejection by any agency of a rule.
- Communication, which includes talking (in person or by telephone) and meeting with elected officials, legislative employees, agency officials, and other state employees with decision-making authority for legislative or administrative action, as well as speaking at public hearings. This category does not include letter-writing.
- Other lobbying-related activities

This category includes time spent monitoring legislative and state agency activities; writing letters; meeting with members or employees of the organization, colleagues, and others to discuss lobbying issues and strategy; collecting, compiling, or analyzing facts, data, or other information; preparing to communicate with elected officials, legislative employees, agency officials, and other state employees with
decision-making authority for legislative or administrative action; preparing correspondence; and preparing others to lobby. **DO NOT record time spent:**
- by the organization’s licensed Lobbyist(s). That time should be recorded in each Lobbyist’s Time Report.
- by clerical staff.
- by unpaid volunteers.
- by employees who have spent no more than 10 hours in lobbying-related activities.
- furnishing information in response to the request of an agency official (but include time furnishing information requested by legislators or legislative employees).
- traveling that does not include any lobbying-related activity.

Time and Expenditure Summary

Hours:
For each Lobbyist, hours will automatically be transferred to the organization's report once the Lobbyist has "certified" the Lobbyist's time report.

Dollars:
For Lobbyists, enter payments and obligations the organization made or incurred during the reporting period to each Lobbyist for lobbying and lobbying-related activities (including retainers, fees, other compensation, and reimbursement of expenses that were charged separately). If two or more Lobbyists were retained from the same lobbying firm and are unable to allocate the portion of the total lobbying payment attributable to each, payment to the lobbying firm can be listed instead of to an individual Lobbyist.

For Lobbyists employed by the principal enter the portion of salaries the organization paid each employee-lobbyist for lobbying-related activities during the reporting period.

If the principal’s compensation to the Lobbyist’s combined payments for lobbying represent 85% or more of the individual's total compensation, the entire amount of compensation paid to the lobbyist can be reported.

Section B: Non-lobbyist Employees: Hours, Compensation and Reimbursement

Hours: Hours will automatically be transferred from the daily itemized non-lobbyist time report to Section B.

Dollars: Enter the portion of salaries attributable to lobbying-related activities.

When making the computation disregard payments to an employee who devoted no more than 10 hours to lobbying-related activities during the reporting period. If the organization compensates an employee, and the combined payments for lobbying represent 85% or more of the individual's compensation, the entire amount of the compensation paid to the employee can be reported. Include salaries earned but not yet paid. Do not report amounts reported in a prior period.

Section C: Public Relations, Research, Volunteers’ Expenses and Other Lobbying Costs

Identify all lobbying expenses and obligations the organization made or incurred during the reporting period not already reported and not included in overhead. Do not include fees paid to the Ethics Commission.

Include the following items:

- Contract Research. Payments and obligations for conducting, compiling, or preparing research, information, statistics, or analyses that would not have been incurred but for lobbying and costs of providing it to state officials.
- Research undertaken and used solely for lobbying. Report total amount of expenditures if research is used within 3 years of completion.
- Research undertaken for lobbying and used for additional purposes. Report only that portion of expenditures allocated for lobbying research (if used within 3 years of completing the research).
• Research undertaken for non-lobbying purposes and used in lobbying. Do not report an expenditure for research that would have been undertaken regardless of its use in lobbying.
• Public Relations. Costs for advertising and activities to urge the public to attempt to influence state legislation or administrative rules (if payments and obligations exceed $500 for the reporting period).
• Volunteers’ Expenses. Costs of persuading and assisting members or volunteers to attempt to influence state legislation or administrative rules and reimbursements of members and volunteers for activities that pertained to lobbying. Exclude travel-related expenses already reported for lobbyists and non-lobbyist employees.

Section D: Non-lobbyist employees who devoted time to lobbying communications
List the names of the organization's paid employees who, although not Lobbyists, spoke in person or by phone or wrote to a legislator, legislative employee, or agency official during the reporting period in order to influence legislative action or administrative rulemaking.

Section E: Payment or Reimbursement to Officials
If the organization or its lobbyist paid or reimbursed an elected state official, state agency official, legislative employee, or candidate for elective state office, provide the date, the name of the recipient, and the amount of each payment. The organization is responsible for obtaining this information from its lobbyists and reporting it. Note that many state officials report to the Ethics Commission their receipt of payments exceeding $50.

Allocation of Lobbying Effort

Under Wisconsin’s lobbying law, every organization that employs a Lobbyist identifies to the Ethics Commission matters on which they make lobbying communications (15-Day Reports). These communications may concern a bill, budget bill subject, proposed administrative rule, or a topic not assigned a bill or clearinghouse rule number. For each matter they reported on a 15-Day Report, the organization is to provide a reasonable estimate of the percentage of the organization's total lobbying-related time during the reporting period that is associated with that item.

NOTE: Matters reported in your SLAE that should have been reported earlier due to 15-Day reporting requirements may result in a late filing penalty. You will need to enter those matters as 15-Day Reports in order to include them in your SLAE.
When estimating the portion of the organization’s lobbying-related time associated with an item, account for development, planning, research, internal discussions, and communications with state officials and staff. If pertinent, include time spent developing or seeking introduction of a proposal and time that may have been spent prior to the organization’s identification of an item. Account for the reported time of all Lobbyists as well as all time reported for non-lobbyist officers, directors, and employees. Express time as a whole percent from 1 to 100.

When estimating the portion of the organization’s lobbying-related time associated with an item, treat each budget bill subject as a separate item. If the organization lobbied on two or more related items, use best judgment in assigning a reasonable estimate of the percentage of lobbying-related time associated with each item as a whole percent from 1 to 100.

**Minor Efforts**

If it is estimated that the organization spent less than 10% of its lobbying-related time on a specific bill, proposed rule, budget bill subject, or topic, the organization may choose to record that estimate next to the item as described above. The organization may also choose to record one or more matters under "Minor lobbying efforts," which documents the amount of time the organization spent on minor items which accounted for less than 10% of the organization's total lobbying-related time.
No Lobbying Communication

If the organization directed a portion of its total lobbying-related time toward matters on which the organization made no lobbying communication, record an estimate of the percentage of lobbying-related time the organization spent on those matters during this reporting period. Time estimates must total 100%.
